AS 1

- System provides exceptionally wide dynamic range with very defined and extended bass response. Flat to 30Hz, a characteristic rarely found in such a modest physical size
- The AS-1 also has the same wide dispersion and superb imaging associated with our larger HR monitor systems in a much more compact size
- The AS-1 is a 3-way system incorporating a very unique and superb quality passive crossover
- The enclosure is constructed of a special laminated birch plywood and other dense woods

Technical Specifications:

Frequency response plus or minus 1.75db 30Hz to 24Khz
Passive three way 18db per octave crossover
Crossover points, 160Hz and 1.6Khz
Efficiency, 85db with one watt at one meter

Components:

HF: one inch aluminum dome and aluminum voice coil in ferrofluid with a sixteen thousand gauss magnetic structure coupled to a solid walnut wave guide.

MF: ten inch mid bass driver with a coated aluminum cone and a one and a half inch voice coil in a ten thousand gauss magnetic structure.

LF: twelve inch sub bass driver with aluminum cone. Two and a half inch voice coil in an eleven thousand gauss magnetic structure. Capable of one and a half inches of excursion.

Dimensions and Weight:

each cabinet
47 inches tall
20 inches wide
14 inches deep
114 lbs
